

## HOW TO USE iHEAR

1. To turn on, tap the ON/OFF button.
2. Tune your car radio to an open station with no broadcast.
3. Connect iHear to the car radio by pressing the arrow buttons until the station displayed on iHear is the same as the radio.
4. Tap the Mode button until the icon for the mode you want is highlighted.

- Station display
- Mode Icons
- Arrow Buttons
- Mode Button and On/Off
- Ports for attaching:
  - microphone headset
  - cell phone
  - power
  - music player

## iHEAR KNOW-HOW

### Setting the station.

Find any open radio station and then use the iHear arrow buttons to match the open station. If a local radio station interrupts iHear, simply find another open station as instructed above.

### Using your cell phone\*.

To answer your phone, press EITHER the button on the headset OR the answer button on your phone. You can make or answer a call in ANY mode (Voice, Music, Private, Speaker). If your music is playing, it will continue. If you are in Voice mode (Voice), your voice will continue through the speakers. Your phone call will not be affected.

#### PRIVATE CALL.

When 'Private' is highlighted, your call will be a regular hands-free phone call through the headset.

#### SPEAKER CALL.

When 'Speaker' is highlighted, the caller's voice will be heard through the car speakers.

### Turning iHear ON or OFF.

Tap to turn on; tap and hold for 3 seconds to turn off.

### Memory.

iHear remembers the last used Mode and Radio Station.

### Power.

Use batteries or ONLY the power adaptor provided with iHear.

## USING iHEAR WITH YOUR CELL PHONE

As you probably know, cell phone equipment is not often interchangeable.

iHear has been designed with a universal headset so that it will be compatible with most cell phones.

If your cell phone does not work with the headset and cable provided, Cool & Useful Products will recommend an adapter if one is available.

Contact us at [info@coolandusefulproducts.com](mailto:info@coolandusefulproducts.com) and be sure to provide the following:

- (1) **your contact information** and
- (2) **the manufacturer and model number of your cell phone** (which is usually found near the battery).

Thank you,

## User Guide

One button does it all!

### What you can do with iHear

You can choose from 4 modes: Voice, Music, Private Call or Speaker Call. One or two icons will be highlighted, depending on what you want to do.

#### VOICE

Broadcast your voice through the car speakers so that passengers can hear you.

#### MUSIC

Listen to music from your iPod or music player through the car speakers.

#### PRIVATE CALL

Talk hands-free on your cell phone using the headset.

#### SPEAKER CALL

Talk hands-free on your cell phone through the headset, with the caller's voice heard through the car speakers.

## **iHEAR WARRANTY**

Cool and Useful Products warrants iHear to be free from defects in workmanship and materials for 90 days. Cool and Useful Products will, at its option, repair or replace defective product free of charge. Contact us at [www.coolandusefulproducts.com](http://www.coolandusefulproducts.com) for an RMA number and then return the item, along with a short explanation of the defect and your proof of purchase to Cool and Useful Products. After the first 30 days from your date of purchase, you will be charged for normal shipping and handling for the replacement. The Cool and Useful Products warranty does not cover neglect or normal wear and tear. Our warranty liability is limited strictly to the replacement of defective product and does not cover any incidental or consequential damages.

**FCC ID: UR3CUP002** THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRED OPERATION. Note: This equipment has been tested and found to comply with the limits for a Class B device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help. The user is cautioned that changes and modifications made to the equipment without the approval of the manufacturer could void the users authority to operate this equipment.
