RE: Application Cover Letter

To Whom It May Concern:

We are certifying a host device under FCC: USE010592, which contains one previously-approved BLE module (FCC ID: QOQMGM13P) and another non-approved Z-Wave module. Full testing on the Z-wave module and radiated testing on the BLE module have been performed. Intermod testing has also been completed to demonstrate compliance when both modules are transmitting simultaneously. We have provided supporting documentation for the previously-approved module and the end device.

Thank you for your attention to this matter.

Yours faithfully

*B. D. Glass*
