

1 Annex B – EUT pictures

1.1 List of Pictures

Picture 1: EUT - front side	2
Picture 2: EUT - back side.....	2
Picture 3: EUT – bottom side.....	3
Picture 4: Standard charger - top view	3
Picture 5: Charging travel case with cover opened - top view	4
Picture 6: Charging travel case with power supply - top view.....	4
Picture 7: Power supply for Charging travel case with - side view.....	5

Important note:

As described in user manual radio transmission is deactivated while handle is placed on plugged-in charger. Therefore charging mode is not subject to radio certification, although plugged-in charger and handle are put on the market together as electric toothbrush.

In addition, handle is sold with a charging travel case that also contains a charger. Using wireless power transfer, plugged-in charger and charging travel case have to be authorized separately.
