#### EZZee and HomeSeer Zee S2 Label Samples

FCCID: UTH-ZW1512

Engineer: Eric Ryherd

There are currently 3 flavors of product supported by this hardware. The only difference between them is the software running on the Raspberry Pi which has no impact on the wireless RF Z-Wave interface.

The label is on the bottom of the unit on the exterior surface. The label is 0.5" x 1.5" and is centered on the bottom of the unit.
