

Figure 2

The consumer packaging for these models includes the battery pack as a separate item, NOT installed on the radio. As such, the FCC identifier will be readily visible to the user before the battery pack is installed and whenever the battery pack is removed or replaced. In this location, the label will also be protected from physical abuse and remain readable for the anticipated life of the device.

The consumer packaging for these models is a "gift box" which does not allow the transceiver to be seen at time of purchase. In order to meet the requirements of 47CFR Part 2.925 (d), UNIER TECHNOLOGY CO., LTD. will add the FCC identifier " UTLF614" to the outside of the consumer "gift box" packaging.

Sincerely,

A handwritten signature in black ink, appearing to read "Victoria Wu".

(Victoria Wu / Manager)
