

WIFI 6E declaration letter

We, Janam Technologies LLC, attest that this device under FCC ID: **UTWXT4WA** complies with device protocol requirements and operational restrictions: for **Dual Client 6CD**.

Dual Client (6CD):

1. Device Protocol Attestation Statement:

- a. This device will only associate and connect with a low-power indoor Access Point, subordinate device, or standard access point and never directly link to other client devices.
- b. Statement that this device will always initiate transmission under the control of a low-power indoor AP, subordinate, or standard AP, except for brief communications before joining a network. These quick messages will only occur if the client has detected an indoor AP, subordinate, or standard access point operating on a channel. These brief messages will have a time-out mechanism such that they will not continually repeat the request if they do not receive a response from an AP.
- c. Statement that this device, when associated and connected with a low-power indoor access point, subordinate or standard access point device, will operate at a power lower as advertised by the indoor access point, subordinate, or standard access point (In addition to the attestation testing is required):
 - i. lower or equal to the power advertised by the low-power indoor access point or subordinate and never above the maximum output power allowed by the FCC grant for clients associated with indoor clients or subordinates.
 - ii. lower than 6 dB below the power of the standard access point advertised.

2. Statement acknowledging device restrictions:

- a. Control of or communications with unmanned aircraft systems is prohibited, including drones.

A handwritten signature in black ink, appearing to read "H. Lerner", with a long horizontal flourish extending to the right.
