RE: VivoMetrics

FCC ID: UWLVS300RX

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) For IC, the model Certified must match the device labeling, or somewhere on the device. Currently the IC form is asking for LS300RS-US to be Certified while the label only shows LS300. Models must match what is being Certified. Note that
- 2) FYI....Users Manual still references 15.247. This should be corrected.
- 3) FYI....Certain parts of the system would require 15.105(b) statements to be placed in the manual. The manufacture should correct this.
