Re: FCC ID: V2A-ECO

To Whom It May Concern:

The following application is submitted on behalf of our client, RG3 Meter Company, for evaluation of their model ECO for certification under FCC Part 15.247.

The ECO is a transceiver interface operating in the 900 MHz ISM band that provides a means of transmitting reading from a utility meter to a remote interrogation device.

The FCC ID: V2A-ECO was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
