DISCLAIMER OF WARRANTY

Warranty is invalid if purchaser fails to properly operate and/or maintain the product. This Warranty is not transferable to third parties. There is no warranty for fitness for a particular purpose. This Warranty is in lieu of all other warranties expressed or implied. No representative or any other person is authorized or permitted to make any Warranty changes or assume on behalf of C-M Glo, LLC any liability not strictly in accordance with this Warranty.

C-M Glo, LLC shall not be liable for special or consequential loss or damages, direct or indirect, such as, but not limited to, damage or loss of property or equipment, loss of profit or revenue, loss of use of the product, cost or replacement of the product, or claims for service interruptions.

Tampering, accident, abuse, negligence, unauthorized repairs, or other causes unrelated to defective materials or workmanship will void this Warranty. This warranty does not cover costs associated with shipping the product to the manufacturer. This warranty does not cover replacement of remote battery.

FCC ID: V2S-TV4LN

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
