RFID Demo App

You can connect the PM85 and RF88 via Bluetooth using the RFID Demo app.

Connecting the PM85 (Bluetooth)

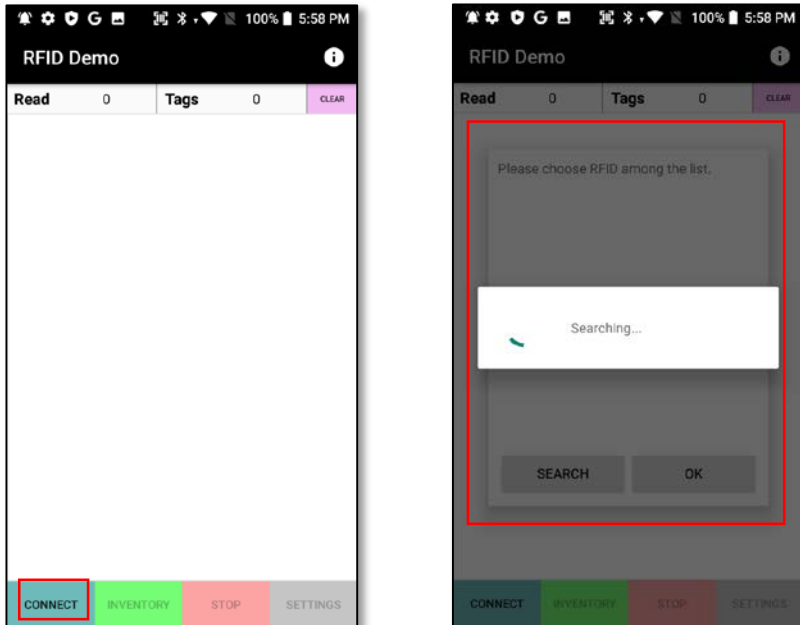

PM85 Bluetooth On

1. Turn on the RF88 by pressing the power button for 3 seconds.
2. On the PM85, tap Settings > Connected devices > Bluetooth to turn it on.

Connecting the PM85 (Bluetooth)

Connecting the RF88 in the PM85 RFID Demo App

3. Run the RFID Demo app and tap CONNECT at the bottom left.
4. Select and connect the desired RF88.
5. All LEDs on the RF88 light up when connected normally.

Reading RFID tags

1. Connect RF88 and PM85.
2. Read the tag by pressing the trigger button on the RF88.
3. Check the tag status by referring to Read and Tags at the top of the RFID Demo app.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with RF exposure requirement.
