Compatible Electronics TCB  
114 Olinda Drive  
Brea, California 92823

Gentlemen:

Pursuant to FCC 47 CFR 0.457(d) and 0.459, the applicant requests that a part of the subject FCC application be held confidential on a short term basis:

Internal Photos, External Photos, Test Setup Photos, and User's Manual

We, Leap Devices LLC, have spent substantial effort in developing this product and it is one of the first of its kind in the industry. Having the subject information easily available to "competition" would negate the advantage we have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Leap Devices LLC requests the exhibits selected above as short term confidential be withheld from public view for a period of 180 days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public. Leap Devices LLC is also aware that they are responsible to notify CETCB in the event information regarding the product or the product is made available to the public. CETCB will then release the documents listed above for public disclosure pursuant to FCC Public Notice DA 04-1705.

If you have any questions, please do not hesitate to contact us at 602-909-1039.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin J. King". The signature is fluid and cursive, with the first name "Kevin" and last name "King" clearly distinguishable.

Kevin J. King  
Director
