

## Attestation Letter

Federal Communications Commission  
Authorization & Evaluation Division,  
7435 Oakland Mills Road,  
Columbia, MD. 21046

Date: 11-21-2023

Subject: Revise report for FCC ID: V5PA800

To Whom It May Concern:

We, SGS-CSTC declare that this product (FCC ID: V5PA800) has not changed anything, since our report didn't describe clearly that the modulation plot is reference plot, it results somebody confused about this.

According to ANSI C63.26:2015 section 5.3, if the modulation is OFDM/LTE modulation, it can be accepted directly, needn't to do any test, so we would like to remove the modulation item from the report and re-submit the updated report on the FCC website.

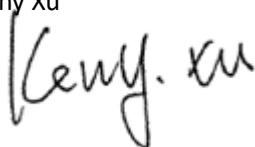

Thank you.

Sincerely,
