

ROMOTE- CONTROL USER MANUAL

Product name:Romote-control

Model:NT-2007B

Winners Lighting Manufactory

Introduction : This remote control device is used to control Christmas lights. The buttons "ON" and "OFF" on the EUT are for turning the lights on and off.

Remove the lid from the battery box .

Plug into two 1.5V AAA battery.

Then push on the lid of the battery box.

Press the 'on' button for turning on the Christmas light, and the 'off' button for turning off the Christmas light.

Push off the lampshade from the light.

Then plug into two 1.5V AAA battery.

Then push on the lampshade .

When both of the robot and the light are powered by battery, and they are in normal station, we can use them. If you want to turn on the Christmas light, you just need to press the 'on' button on the robot, then the light will continue to work until you press the 'off' button, that is for turning off the light.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
