

## Circuit Description of Wall Light

Description of circuit:

The brief circuit description is listed as follow:

1. Control Circuit: K, R1 and R3
2. RF Launch Circuit: R4, Y1, T1, R2, C2 and C4
3. Drive Circuit: U1
4. Launching antenna is Built-in antenna. It's good for receive and launch 315MHz RF signal.
5. Power of the whole body is provided by 12V polymer battery.
