Monitron Label Placement
July 18, 2008

FLOM TEST LABS
3356 N San Marcos Suite 107
Chandler AZ, 85225

Dear Jackie Pillai:

Because Monitron Host systems are buried, the FCC Label for the module will be placed inside the lid of the host products to prevent any degradation to the label. These units are typically buried for several years and there is a concern that the label may not be readable when the unit is uncovered. However, with the label located inside the lid, the label will be visible when the unit is serviced.

Best Regards,

A handwritten signature in black ink that reads "Max A. Lopez". The signature is fluid and cursive, with "Max" on the top line and "A. Lopez" on the bottom line.

Max A. Lopez
Engineer Supervisor
Ext. 112
