March 29, 2010

Federal Communications Commission  
Office of Engineering and Technology  
445 12TH ST SW  
Washington DC 20554

To Whom It May Concern:

I am writing in reference to FCC ID: V8NWAT1000119. An error during filing marked this grant as Limited Singular Modular Approval. However, this should be just Single Modular Approval, as specified in the Modular Approval Letter that was submitted as well as the Grant Notes. We are requesting that the grant be placed in audit mode so that this can be corrected. Please let me know if more information is required.

Sincerely,

Jennifer Warnell  
TCB Administrator/Documentation
