GENERAL SAFETY SUMMARY

⚠	**CAUTION**	⚡
	RISK OF ELECTRONIC SHOCK DO NOT OPEN	

CAUTION:
DO NOT REMOVE THE COVER FOR REDUCING
THE RISK OF ELECTRIC SHOCK.

NO USER-SERVICEABLE PARTS INSIDE REFER SERVICING TO
QUALIFIED SERVICE PERSONNEL.

WARNING

To prevent fire or shock hazard , do not expose the unit to rain
or moisture.
This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions:
（1）**This device may not cause harmful interference**, **and**
（2）**This device must accept any interference received**,
including interference that may cause undesired operation.

# IMPORTANT SAFETY INSTRUCTIONS

1. All the safety and operating instructions should be read before the product
   is operated.
2. The safety and operating instructions should be retained for future reference.
3. All warnings on the product and in the operating instructions should be
   adhered to.
4. All operating and use instructions should be followed.
5. Unplug this products from the wall outlet before cleaning. Do not use liquid
   cleaners or aerosol cleaners. Use a damp cloth for the cleaning.
6. Do not use attachments not recommended by the products manufacturer
   if they may cause hazards.
7. Do not use this product near water - for example, near a bath tub, wash
   bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming
   pool; and the like.
8. Any mounting of the product should follow the manufacturer's instructions,
   and should use a mounting accessory recommended by the manufacturer.
9. This product should be operated only from the type of power source indicated
   marking label. If you are not sure of the type or power supply on the to your
   home, consult your product dealer or local Power Company. For products
   intended to operate from battery power, or other sources, to operate from
   battery power, or other sources, refer to the operating instruction.

1

10. Power supply cord should be routed so that they are not likely to be walked on walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, or other sources, refer to the operating instructions.
11. For added protection for this product during a lightning storm, or it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect cable system. This will prevent damage to the product due to lightning and powerline surges.
12. Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electronic shock. Never spill liquid of any kind on the product.
13. Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
14. Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions.
    ● When the power- supply cord or plug is damaged.
    ● If liquid have been spilled, or objects have fallen into the products
    ● If the product does not operate normally by following the operating instructions, adjust only those controls that are covered by the operating instructions as an improper adjustment of other control may result in damage and will often require extensive work by a qualified technician to restore this product to its normal operation.
    ● When the product exhibits a distinct change in performance - this indicates a need for service.
    ● If the products has been dropped or damaged in any way.
15. When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or that have the same characteristics as the original part.
    Unauthorized substitutions may result in fire, electric shock, or other hazards.
16. Upon completion of any service or repair to this product ask the service technician to perform safety checks to determine that the product is in proper operating condition.
17. The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products including amplifiers that produce heat.

PACKAGE CONTENTS

Check all of the components shown as below
are included in box before using.

▼	Used to choose a film downward from the titles list. When the cursor moves to a desired title, press "OK" to force the system to play the currently selected film, no matter what film is playing right now.

4. Choose file source

   The system automatically searches for all inserted storage media and gives a sign in front of them. Move the cursor up or down to choose a desired storage media, then press "Enter" and the system goes back to the main menu. The user may select pictures, music or a film on the card as desired. To switch to other storage media, go back to the main menu to operate and choose again.

5. Camera Mode

Selected the "camera" icon to switch the screen to display where the camera is taking to. While someone is coming, the Wireless Camera will detect automatically and the photo frame will alarm for Seconds.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
. Reorient or relocate the receiving antenna.
. Increase the separation between the equipment and receiver.
. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
. Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

FCC Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.
