USER MANUAL

US and Foreign Patents Pending

GETTING STARTED

You will need to sync your Transceiver to your Earpiece.

This is real easy to do. It should take less than 5 seconds.

During off mode hold down the sync, on/off button on the PTT and earpiece until you see a red/blue flashing lights.

Both units will flash a single blue light when synced and ready to go. On both units the blue light will blink twice every 4 seconds when in operation. On the ptt a single red light will stay on, which means it's connected and working.

When both units are synced it will not have to be synced again unless you replace either unit

Led colors

2 blue blink every 4 seconds- Working

1 Red solid on PTT and blinking blue- synced and working

Blinking Red- Battery needs to be charged

Charging-

Red- Charging

Flashing Red- Half way completed

No lights- Fully charged

HEARING PROTECTION WARNING

It is the sole responsible of the user to determine and comply to local hearing protection regulations . Earpiece can be capable of delivering sounds at high levels. Exposure to such level can result in permanent hearing loss. As well the rubber gel insert is the sole responsibility of the user to determine proper fit. Use caution when inserting the rubber gel insert into your ear

CERTIFICATIONS AND SAFETY APPROVAL

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This Class B digital apparatus meets all requirements of the

Canadian Interference-Causing Equipment Regulations.

Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

Caution

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
