

# WALKIE-TALKIES

**Important: Please save this instruction sheet. It contains valuable product information.**

## Battery Safety Information:

- Only adults should install and replace batteries.
- Do not recharge non-rechargeable batteries.
- Remove dead or exhausted batteries.
- Connect battery terminals to battery clip correctly. Do not force into place.
- Do not place anything across the battery terminals.
- Only use the batteries specified above.
- We recommend you use alkaline batteries. Rechargeable batteries may affect performance.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Do not mix old and new batteries.
- Do not dispose of batteries in a fire; they may explode.
- Dispose of batteries safely.
- Do not use rechargeable batteries.
- Only the batteries of the same or equivalent type as recommended are to be used.
- The supply terminals are not to be short-circuited.

## Attention Adults—To Replace Batteries

Requires two 9-volt batteries, one for each Walkie-Talkie (not included).

1. Use a small Phillips head screwdriver to loosen the screw in the **battery compartment door** on the back of each Walkie-Talkie (Figure A). Unclip the door.
2. Snap the **battery clip** on the battery and place inside compartment (Figure B).
3. Replace the battery compartment door and tighten screw.

## To Operate Walkie-Talkies

1. Turn the **On/Off switch** to **ON**.

**NOTE: BOTH WALKIE-TALKIES MUST BE SWITCHED ON TO TALK.**

2. To **talk**, press and hold the **talk button**. Release the **talk button** to **listen**.
3. To **call**, hold press the **call button** while holding down the talk button.
4. Slide the On/Off switch to **OFF** after use.

## Notes

- **Be careful not to talk at the same time as your friend. Two people talking at once will affect the Walkie-Talkie performance.**
- **Remember to switch the Walkie-Talkie OFF after use to conserve battery life.**
