

Limited Module Approval Request Letter

Subject: Limited Module Approval

Date: 2007/05/11

FCC ID: VAQ-CIRARP100110

Dear Reviewer,

CriRich Technology Corporation, WiFi Air Presenter, is seeking FCC authorization as a Part15 unlicensed limited modular approval. The requirements of the FCC public notice DA 00-147 are met.

1. The requirement of RF shielding: The shielding of the radio portion can be demonstrated in exhibition External Photo.
2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in chip AR2413A.
3. The requirements of section 15.203 and 15.204(C): The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.
4. The requirement of stand-alone test configuration: Module tested in stand-alone configuration as shown on test setup photos.
5. The requirement of labeling: The instruction on the labeling rule of the end product has been stated in the users manual of this module. Please also see the exhibition Label Sample.
6. The requirement of compliance on specific rule or operating requirements: The required FCC rule has been fulfilled and all the instructions for maintaining compliance have been clearly stated in the Users Manual.
7. The requirement of RF exposure: The modular transmitter complied with Maximum Permissive Exposure.

Below items have not been fulfilled in module approval request:

1. The requirement of power supply regulation: Module does not have own power supply regulation. Integration is limited to specific hosts (e.g. CirRich WiFi Air Presenter APR 100, APR 110) with a 3.3 VDC power regulator to provide RF Module with stabil power via mini-PCI interface.

Please do not hesitate to contact me for any questions of this request letter. Thank you.
