

**EXHIBIT 2**

**Section 2.911 (d) CERTIFICATION OF TECHNICAL TEST DATA**

To Whom it may Concern:

This is to certify that the **Nokia AirScale MAA 64T64R 192AE B48 AEQM** with **FCCID: VBNEAQM-02**, manufactured by Nokia is a LTE-TDD (Long Term Evolution-Time Division Duplex) and 5G-NR transceiver and operates in 48 Citizens Broadband Radio Service (CBRS) spectrum (3550-3700 MHz).

R.J. Johnson  
Technical Manager  
FCC Compliance Test Group

**Section 2.911 (e) QUALIFICATION OF ENGINEERS**

Steve Gordon is a Member of Technical Staff at Nokia. He received a BSET degree in 2001 from The New Jersey Institute of Technology, Newark College of Engineering. He has more than 20 years of experience in the EMC regulatory industry. He has developed test plans and conducted RF tests including the required FCC tests for radio equipment certification. Steve is the Lead engineer for the FCC filing of the subject product at Nokia.

Section 2.911(d) CERTIFICATION OF TECHNICAL TEST DATA

I hereby certify that the technical test data are the results of tests supervised by me.

Steve Gordon  
Member of Technical Staff
