Federal Communications Commission
EQUIPMENT AUTHORIZATION BRANCH
7435 Oakland Mills Road
Columbia, MD 21046

Reference: FCC ID: VBNAVHA-01

Dear Sirs:

We respectfully wish to apply for a Class II permissive change for the above referenced FCC Identifier under the provisions of FCC rule 2.1043.

The change entails adding 5G-NR 33/34/38/38.5/44/49/49.5/55/57.5/86 MHz channel bandwidth slimmed carriers to the radio with resulting new emission designators. This change is made through updated software. In addition, a pin-to-pin replacement power amplifier from an alternate supplier is used. Radio testing was performed to show the new and continuing compliance and verify the hardware change did not degrade radio parameters.

The applicant certifies that no party to this application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug abuse Act of 1988.

Our FRN number is 0016412652.

Your prompt attention to this matter is appreciated. Please let me know if there are any questions or if further data is required.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Mitchell", is written over a light blue horizontal line.

Steve Mitchell
Compliance Engineer
