Re: Request for confidentiality

Applicant: OPEX Corporation

FCC ID: VDM2048910

To whom it may concern,

Request is hereby submitted by OPEX Corporation to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description
- User manual

Rationale for request for confidentiality:

OPEX Corporation has invested considerable time and materials in research and development to produce the referenced products. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by OPEX Corporation.

Technical information pertaining to the equipment, including schematics, detailed block diagrams, detailed operational / functional description, and user's manuals are issued to the equipment end user and are subject to the terms of a non-disclosure agreement entered by OPEX Corporation and equipment end user. Furthermore, equipment servicing and maintenance is performed by OPEX Corporation technicians.

Permanent confidentiality of User manual of the referenced products is requested due to the specific requirement for licensee appointed service and installation of the referenced products.

If you have questions or need further information, please contact the undersigned.

Sincerely,
Michael Powell

A handwritten signature in black ink that reads "Michael Powell".
