Administration

SEP 25 2007

Mr. Andy Leimer
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Dear Mr. Leimer:

We have received the Nemko letter for the Federal Communications Commission (FCC) certification application of the transceiver, Model 141 001, FCC ID VE8142005, dated September 10, 2007, and have completed the subject review. We have no objection to the FCC certification of this very high frequency Nemko 141 001 transmitter (no audio input to modulate) as part of the Obstacle Collision Avoiding System with max out-put RF power of 1mW on channel, operating in the aviation protected 118 MHz to 136.975 MHz band within the NAS.

If you require any additional information, please contact Ms. Annette Allender, Spectrum Planning and International Office, at (202) 267-3893.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robert A. Frazier'.

Robert A. Frazier
Manager, Spectrum Planning and
International Office
