Re: Justification for not certifying device for 5.8GHz operation: FCC ID: **VEYCN1300W1**

Dear Sir or Madam,

I am writing this letter to justify the certification of a dual band (2.4 GHz / 5.8GHz) WiFi module, FCC ID: **VEYCN1300W1** for only 2.4GHz operation. The reasons are as follows:

1. Our product using this module will only operate at 2.4 GHz
2. Our software does not enable 5.8GHz operation
3. Our user interface does not offer the user the option to enable 5.8 GHz operation
4. Our antenna does not contain 5.8GHz elements.

Sincerely,

Date:

1/21/15
