## 2 Pair to your Bluetooth phone

Before you use your headset for the first time, ensure that it is paired to use it with devices such as your Bluetooth phone.

Once you pair the headset with a device, the Headset will be automatically connected to the device wherever you turn the headset on.

Ensure the headset is off.

Press and hold the Multi-Function Button until you see blinking Blue and Red light. (Approximately 6 seconds), then release.

Set your Bluetooth phone to "discover" the headset by following your phone's instruction guide. Typically, "Bluetooth" menu on your phone and the selecting the option to "discover" a Bluetooth device.

Bluetooth devices

H3

Your phone will find your headset and if you want to pair with it. Confirm this by pressing "yes" or "OK".

Scan results

Enter Bluetooth Passkey

\*\*\*\*\*

Enter passkey or PIN=0000 (4 zeros), then press "yes" or "OK".

### IMPORTANT!

When the headset paired with mobile phone, the indication light will flash 3 times every 2 seconds. If failed, the blue indicator light will flash 2 time every 2 seconds.

### 3 Charge the battery

This device has an internal, nonremovable, rechargeable battery. Do not attempt to remove the battery from the device as you may damage the device.

1. Connect the charger to a wall outlet.
2. While the charger is connected, the red indicator light will break off displaying 5 seconds at first, and then resume displaying during charging. If charging does not start, disconnect the charger, plug it in again, and retry. Charging the battery fully may take up to 2 hours.

3. When the battery is fully charged, the red indicator light turns off. Disconnect the charger from the headset and the wall outlet.

The fully charged battery has power for up to 4-6.5 hours of talk-time or up to 120-180 hours of standby time. However, the talk and standby times may vary when used with different mobile phones or other compatible Bluetooth devices, usage settings, usage styles, and environments

When battery power is low, the headset will remind you by beeps every 20 seconds, and the red indicator light starts to flash.

## 4 Battery information

Your device is powered by a chargeable battery. the full performance of a new battery is achieved only after two or three complete charge and discharge cycle. The battery can be charged and discharged hundreds of times, but it will eventually wear out.

Unplug the charger from the electrical plug and the device when not in use. Do not leave a fully charged battery connected to a charger ,since overcharging may shorten its lifetime . If left unused, a fully charged battery will lose its charge over time.

If the headset would be leave unused for a long time, please charge fully and turn off the headset. To prevent overdischarge endangering the battery, you are recommended to charge the headset fully each month.

Never use any other charger that is damaged.

## 5 Turning headset on /off

	How to act	Tones	Indicators
