B. Travel Charger.....	1
C. Car Charger.....	1
D. User Manual.....	1
E. Stop Return Card.....	1
F. Ear Pad.....	2

## 2 Pair to your Bluetooth phone

Before you use your headset the first time, you must pair the unit with a Bluetooth device e.g. Bluetooth mobile phone. This operation guide based on the Bluetooth phone as the host's device. Please refer to the following step to set up the pairing:

1. Ensure the headset is off.
2. Press and hold the MFB for 2 seconds until you see the Blue and Red LED light flash alternately to enter the pairing mode.
3. Following your phone's instruction guide, operate your Bluetooth phone to active Bluetooth function and search the headset.
4. Your phone will find the headset and show the device name on the screen, select the device name and confirm to pairing.
5. Enter PIN code as 0000 (4 zeros) and confirm to complete pairing.

### NOTE:

- If the pairing is successful, the headset will connect to your phone automatically, you may need to confirm the enquiry.
- While the headset is paired with the phone and connected, the indication light will flash 1 times every 3 seconds. If failed or didn't connect to the phone, the blue indicator light will flash 1 time every 5 seconds.
- Once you paired the headset with one device or more, the Headset will automatically connect to the phone you last connected wherever you turn the headset on, but make sure your phone's Bluetooth function is active.

### 3 *Charging the battery*

This headset has an internal, non-removable, rechargeable battery. Do not attempt to remove the battery from the device as you may damage the device. Please refer to the following step to charge the battery:

1. Connect the charger to the correct outlet.
2. When the charger is connected to headset, the red indicator light will turn on during charging. If charging does not start, disconnect the charger, plug it in again. Charging the battery fully may take up to 2 hours.
3. When the battery is fully charged, the red indicator light will turn off. Disconnect the charger from the headset and the wall outlet. The headset is ready to use.

**NOTE:**

- The fully charged battery has power for up to 11-13 hours of talk-time or up to 250-300 hours of standby time. However, the talk and standby times may vary when used with different mobile phones or other compatible Bluetooth devices, usage settings, usage styles, and environments.
- When battery power is low, the headset will remind you by beeps every 20 seconds, and the red indicator light starts to flash.
- For first time use, please charge the headset fully. If you can not see the indicator light while charging, please leave the headset on the charging for a while, and then the indicator light will turn on.

## 4 *Battery information*

Your device is powered by a chargeable battery. The full performance of a new battery is achieved only after two or three complete charge and discharge cycles. The battery can be charged and discharged hundreds of times, but it will eventually wear out.

Unplug the charger from the electrical plug and the device when not in use. Do not leave a fully charged battery connected to a charger, since overcharging may shorten its lifetime. If left unused, a fully charged battery will lose its charge over time.

If the headset is left unused for a long time, please turn off and fully charge the headset. To prevent over-discharge, which will endanger the battery, you are recommended to charge the headset fully each month.

Never use a charger that is damaged.

## 5 *Turning headset on /off*

### **\*Turn on the headset**

If the headset is turned off, press and hold MFB for 2 seconds until you hear a melody from low to high, the headset turns on, the Blue indicator light will flash 3 times at the same time.

### **\*Connects to the phone**

If your headset has finished the pairing operation successfully, when the headset is turned on, it will connect to the phone you last connected automatically, but make sure your phone's Bluetooth function is active.

### **\*Turn off the headset**

At any working state after the headset turns on, press and hold MFB for 4 seconds, you will hear a melody from high to low, and the Red indicator light will flash 3 times at the same time, the headset turns off.

Please Note: For saving the power, while the headset didn't connect to any device over 1 hour, the headset will turn off automatically.

## 6 Wearing your headset

According to your preference, you can wear the headset on your left or right ear, regard the hoop of the headset as starting point, the MIC wand can turn down 160 degree clockwise or anticlockwise, see the following figures:

MIC wand folded up

MIC wand turned down

## 7 Making a call

### \* By phone's keypad

At the stand-by state, dial the number on your phone directly to make a call.

### \* Use Voice-Dialing

At the stand-by state, press the MFB shortly, you will hear a short tone from the headset, and the phone will prompt you say the voice tag like your friend's name. If the voice tag is identified by the phone, the related number will be dial-out later. Make sure whether your mobile phone supports voice dialing function, and you need to set up voice tags on your mobile phone first.

### \* Last number re-dialing

Press and hold Volume Down button for 2 seconds, you will hear 2 short tones, the last number you dialed will be re-dial out.

## 8 *Ending a call*

When in the calling, press the MFB shortly or turn up the MIC wand will end the call, or you can end call on your mobile.

## 9 *Reject an incoming call*

When you receive an incoming call, press and hold MFB for 2 seconds will reject the incoming call.

## 10 *Answering a call*

When you receive an incoming call, press the MFB shortly can pick up the incoming call. Also if the MIC wand folded up, turn it down can answer the call, or you can pick up the call on your mobile.

## 11 *Transfer a call*

When in the calling, press and hold Volume Up button for 2 seconds can transfer the call from headset to phone. Repeat the operation can transfer the call between the phone and headset each other.

## 12 *Volume control*

While you are in the calling, you can adjust the volume by pressing volume up and volume down button or you can adjust the volume on your mobile.

## 13 Mute

While you are in the calling, Press Mute button or press and hold the Volume Down Button for 2 seconds, you will hear a melody from low to high, then the headset's MIC will be muted, and you will hear remindful melody every 10 seconds. Repeat the operation your will hear the melody from high to low, the mute function is cancelled.

## 14 Call-waiting (Three-Way Calling)

Before using Call-waiting function on your headset, please ensure that your phone supports the Hands-free profile, and you have been provide the service by the net provider.

- \* If there is another incoming call while you are in the calling, press MFB shortly can accept the waiting call and end current calling.
- \* If there is another incoming call while you are in the calling, press and hold MFB for 2 seconds can accept the waiting call and hold on current calling.
- \* While you are in the calling and another call was holding on, press MFB shortly can end current call and resume the holding on calling.
- \* While you are in the calling and another call was holding on, press and hold MFB for 2 seconds can shift the current calling to the holding on calling.
- \* While you are in the calling and another call was holding on, press Volume Up button and Volume Down button shortly can add the holding on call to the current conversation to make a multiparty call.
- \* While you are in the calling and another call was holding on, or you are in a multiparty calling, double press MFB can end the calling or remove yourself from the multiparty calling.

## 16 *Safety and general information*

1. Please read this guidebook carefully and follow the instructions.
2. To avoid any damage or malfunction of the device do not drop device from high places.
3. Keep device away from humidity, water and any other liquid. If the device is exposed to water, moisture and other liquid, do not operate it to avoid any electrical shock, explosion and damage to the device or yourself.
4. Do not place or keep this device near any heat sources, such as, direct sun light, radiators, stoves or other apparatus which produce heat. It may cause explosion, degrade the performance and/or reduce battery life.
5. Do not modify, repair or disassemble device at discretion (Especially battery: It may cause an explosion). Doing this will void the warranty.
6. Do not place the heavy objects on the device.
7. Use only supplied and approved charger.
8. Replacement or service must be done by qualified service center or manufacturer.
9. Unplug this device when unused for long periods of time or during lightening storms.

### **CAUTION: ELECTRIC SHOCK HAZARD**

The battery used in this device may present a risk of fire or chemical burn if mistreated.

## 17 FCC Statement

### Important Information Required By the FCC

The Manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment

**This device complies with Part 15 of the FCC Rules**

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

## 18 EU

This product is CE certified according to the provision of the R&TTE Directive (99/5/EC).

Declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Please note that this product uses radio frequency bands not harmonized within EU.

Within the EU this product is intended to be used in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg,

The Netherlands, Portugal, Spain, Sweden, United Kingdom and within EFTA in Iceland, Norway and Switzerland.

Bluetooth is a trademark owned by the Bluetooth SIG, Inc.

## 19 **Warranty**

The condition of this warranty and our responsibilities under this warranty are as follows:  
Warranty is non-transferable, and is limited to the original purchaser only.

- \* You must be able to prove the date of original purchase of the unit with a dated receipt.
- \* The warranty is not applicable if the product has been subject to physical abuse, improper installation, modification or repair by unauthorized third party.
- \* The responsibility of supplier's products shall be limited to the repair or replacement of the product at it's sole discretion.
- \* Specifically exempt from any warranty are limited-life consumable components subject to normal wear and tear such as batteries, decorates and other accessories.
- \* Supplier will not take any responsibility if the failure of the unit has resulted from accident, abuse, misuse, or any unauthorized repair, modification or disassemble.
- \* Modification and repair of the unit this device must be done by an authorized and qualified service center or returned to the manufacturer.

\* This warranty gives you specific legal rights, and you may also have other rights which vary under local laws.

U.S. and Worldwide Patent Pending. Built on Cambridge Silicone Radio chip. This device complies with Part 15 of the FCC Rules, and the applicable regulations within the EU.
