RE: Declaration of Similarity

To Whom It May Concern:

Please be advised that the models below are identical to the RA24e:

- RA24i

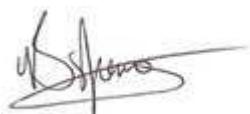

All models are electronically identical, all RF measurements and test results are exactly the same.

The difference between the models is the antenna. The 'e' model has an external antenna connection and the 'i' model uses an on board chip antenna and two feed components.

Thank you for your attention to this matter.

Yours faithfully

Mantracourt Electronics Ltd
