

IP 3911 Elite STK System
Serial Number Upgrade for FCC compliance

The following photographs show the updated format for the serial number plate.

The date of manufacture will be added at the time of manufacture.

The serial number will match the last 4 digits of the UHF RFID tag also fitted to the serial number plate. A sample format is as shown.

The layout format is shown following. This is not to scale

The physical layout will be as shown in the photograph along side. This will be readily visible in the handle recess on the equipment

Label scale is as indicated in the photograph.
