Compliance Certification Services

Certification Division

561F Monterey Road

Morgan Hill, CA 95037

To. whom it may concern:

We, Wintelecom Inc would like to declare that this device, FCC ID: VIMWA500SU does not operate at 5150-5350 MHz and support turbo mode, because we block these functions by firmware. So user cannot control and operate above frequency and mode by software.

Sincerely Yours,

Soon-Beom Kwon / Assistant Manager

Wintelecom Inc.
