From: Hyung Seok, Lee / ETL Inc.

Subject: Response of FCC certification for the artecsound.

Dear Ms. Xing Liu

Thank you for your kindly cooperation, this is answer about your question for FCC certification.

There is Input and Output jack. What will be connected to the input jack and to the output jack? Where will the transmitter be installed?

☞ Please refer to the Operational description & Test report.

"It can operate when the piezo transducer is connected to the input jack of the unit."

☞ Basic output jack's circuit is same with below part.

EUT is specially designed for ultra-thin guitar body.

Cut to cutting template size in manual.

Thereafter, EUT is linked to Guitar.

Output jack about FM transmitter action does not exert any effect.

Hyung Seok, Lee

Chief Engineer of EMC Team
