Sunnyvale, CA. 94085

August, 24th, 2007

Dear Examiner:

The FCC label on the way5000 is located in the battery compartment, and will not be readily visible to the end user at the time of purchase. A note pointing to the location of the label will be added to the Safety and Regulatory pamphlet, which will accompany each of the way5000 terminals shipped to the US. In addition, the FCC ID will be printed on the cover of that same document.

Sincerely,

A handwritten signature in black ink, appearing to read "Ron Fridman".

Ron Fridman
Director of Engineering
