I have a few comments on this application. Depending on your responses, kindly understand there may be additional comments.

1. Both "External Photo" and "Internal Photo" directories at ATCB web server were uploaded with internal photos.  
Please provide external photos for this application.
2. For the measurement on the radiated emission which falls in the restricted bands at section 6.5.2 of the test report, only 1MHz resolution bandwidth was shown not including video bandwidth.  
Please state what the video bandwidth was used for this test item.
