Columbia, Maryland 21046

To whom it may concern,

On behalf of Bayer Diabetes Care, I respectfully request original certification for the Bayer CGMT01 Transmitter under part 15.249 rules. The device will be identified with FCC ID VN5-CGMT01.

The CGMT01 is part of a Continuous Glucose Monitoring System which allows individuals to track changes in tissue glucose levels as part of a Diabetes management regimen. The CGMT01 attaches to a body-worn minimally invasive glucose sensor, providing wireless data transmission to the CGMM01, a handheld monitor which displays current glucose data, graphs recent data and stores historical data for future review and reference.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Bruce', with a long, sweeping horizontal line extending to the right.

Robert A Bruce, PhD  
Manager, Biomedical Engineering
