Subject: NVIDIA P2897 Bluetooth Circuitry Declaration

To whom it may concern:

To request a Class II permissive change for FCC ID: VOB-P2897, originally granted on 08/29/2016, we declare that:

- RF chip changed from BCM4354(CYW4354) to CYW4356.
- The circuitry of Bluetooth subsystem in BCM4354(CYW4354) and CYW4356 are electrically identical.
- The firmware and other software will be updated during the lifetime of this product without any impact to Bluetooth radio performance.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charlie Shu".
