Label Location Justification Letter

This justification is applicable to the LoRa module identified as:

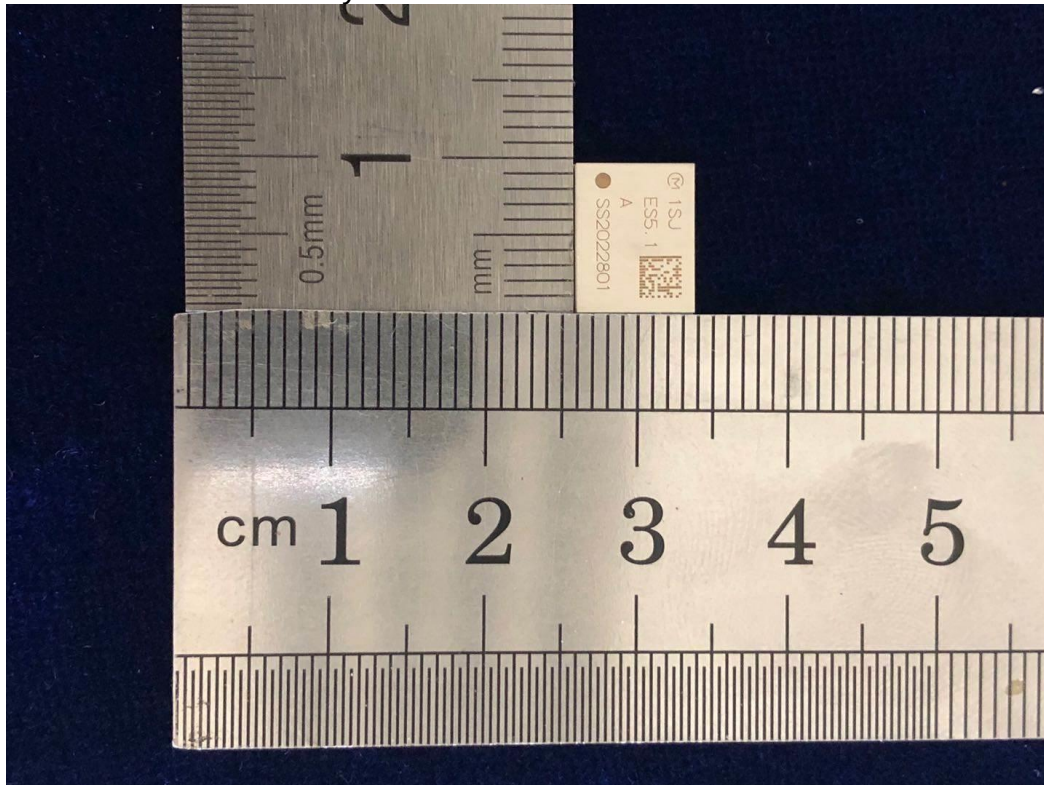

Model: LBAA0QB1SJ

FCC ID: VPYLB1SJ

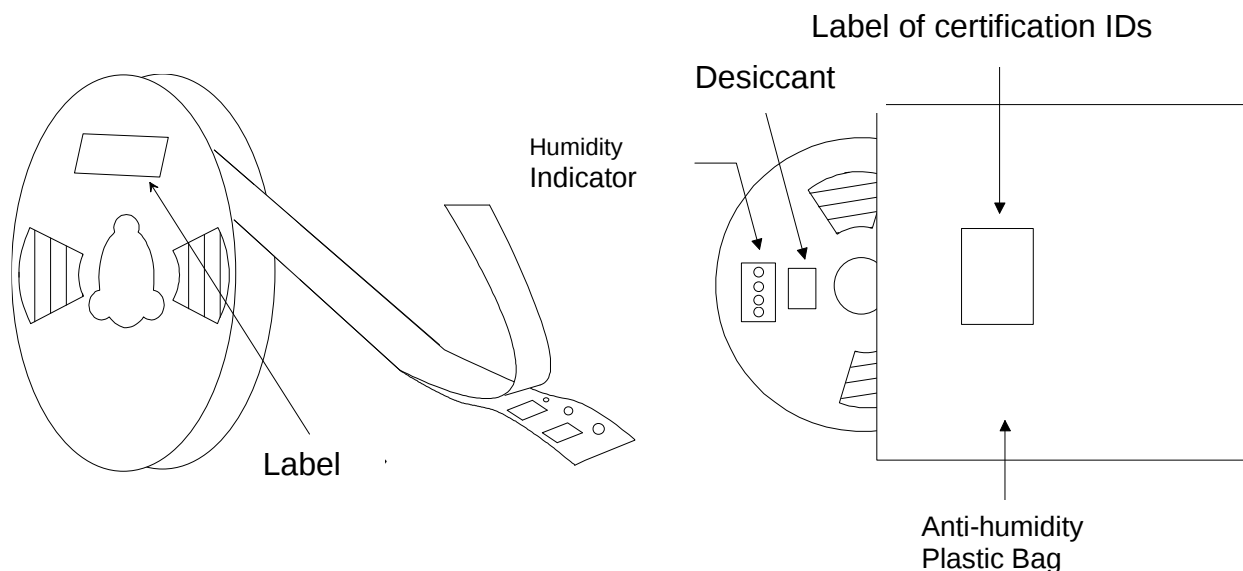

Since the module is too small to put the FCC ID even with the font size 4 point, according to the FCC Regulation and Guidance (KDB Publication 784748 D01 v09r01) which allows the FCC ID to be moved onto the user manual and packaging if the device is unquestionably too small for the FCC ID to be printed, we have to put the FCC ID on the user manual and packaging.

Module appearance

The module size is 10.0*8.0mm. There is not enough space to put the FCC ID besides other mandatory marked information.

FCC ID on the packaging

A label of certification IDs is sticking on the anti-humidity bag.

Model: LBAA0QB1SJ
FCC ID: VPYLB1SJ
IC: 772C-LB1SJ

Sincerely Yours,

Signature:
