

Request for Class II Permissive Change

March 23, 2021

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : VPYLBEE5ZZ1PJ
Applicant : Murata Manufacturing Co., Ltd.

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: VPYLBEE5ZZ1PJ, originally granted on January 1, 2019 and all its permissive changes.

We changed the following points from the original model.

- Allowance of co-location (UNII band only) for the specific device

Please refer to "User Manual" and "Theory of Operation" for details of modifications.

Meanwhile we submit the following documents related to this change. There is no change before and after change except for these documents.

<input type="checkbox"/>	Test Report
<input checked="" type="checkbox"/>	RF Exposure
<input type="checkbox"/>	External Photo
<input type="checkbox"/>	Internal Photo
<input checked="" type="checkbox"/>	User Manual
<input type="checkbox"/>	Label Drawing/ Location
<input type="checkbox"/>	Block Diagram
<input checked="" type="checkbox"/>	Specification
<input type="checkbox"/>	Schematic Diagram
<input type="checkbox"/>	Parts List

This time, we did not perform the testing, however we confirmed that this product still meets the minimum requirements of the applicable rules of FCC even under the following co-location environment; The specified radios are co-existed in a host device such as a home appliance and that each radio has independent antennas, and the antenna is not shared by multiple radios.

Thank you for your attention to this matter.

Sincerely,

K. Hayashikoshi
