RE: TWS Digital Technology (Shenzhen) Limited

FCC ID: VQCTWSBSH631101

I have a few comments on this application. Depending on your responses, kindly understand there may be additional comments.

1. Block diagram:

The 2.402~2,480GHz frequency value of the XTAL shown on block diagram is not correct. 2.402~2,480GHz frequency is for operating frequency, but not the real value of the XTAL. The correct value of XTAL should be 16MHz according to the provided schematics. Please supply revised block diagram with correct frequency value.

2. Test report:

The antenna photo at page 8 of 48 is out of focus. Please provide a better photo.

George Chen
