**Overview**

This application is for an original equipment certification for limited modular approval of the Socket KwikBlue 4 Class 1 BC04 Bluetooth Module in Juniper System's host computer, M/N: Archer. The FCC ID of the Bluetooth radio is VSF19799AR. The Bluetooth Radio is an EDR device and can operate in the 2400-2483.5 MHz band at multiple data rates. RF exposure information is provided with this application. The radio is housed inside of an ultra-rugged, waterproof field PC. The host field PC can operate off of battery power or when charging, indirectly connected to the AC Mains.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
