Dear Application Examiner:

We are submitting this application for original equipment certification for limited modular approval of the Socket KwikBlue 4 Class 1 BC04 Bluetooth Module in Juniper System's host computer, M/N: Archer. The FCC ID of the Bluetooth radio is VSF19799AR.

The Bluetooth Radio is an EDR device and can operate in the 2400-2483.5 MHz band at multiple data rates. RF exposure information is provided with this application. The radio is housed inside of an ultra-rugged, waterproof field PC. The host field PC can operate off of battery power or when charging, indirectly connected to the AC Mains.

The radio utilizes a single integral chip antenna. This configuration satisfies the requirements of 47 CFR 15.203.

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.247 as a hybrid transmitter.

Thank you for your work in reviewing this application.

Sincerely,

Juniper Systems, Inc.
