Re: FCC ID: VSF24770

To Whom It May Concern:

The following application is submitted on behalf of our client, Juniper Systems, Inc., for evaluation of their module certified under FCC ID: VSF24770 for a Class II Permissive Change.

The purpose of the Class II permissive change is to integrate the FCC ID: VSF24770 within the Juniper Systems, Inc. Archer2 host configuration which includes a 2.4 GHz Bluetooth/WLAN transceiver (FCC ID: VSF23545).

The Juniper Systems, Inc. Archer2 is a portable handheld device. The device was evaluated for compliance to the SAR requirements with all the integrated wireless modules. The SAR test report is included in this submission.

Additionally, the FCC ID: VSF24770 was evaluated for intermodulation products when transmitting simultaneously with the co-located 2.4 GHz, Bluetooth and Wi-Fi transceiver within the Archer2 host device. The intermodulation products for all combinations of simultaneous transmission of the aforementioned transceivers were found to be in compliance to the requirements of FCC Section 15.209.

Sincerely,

Sam Wismer
