December 6, 2007

RE: Yusan Industries Ltd

FCC ID: VTARIR200

I have a few comments on this application. Depending on your responses, kindly understand there may be additional comments.

1. Please provide a FCC ID label for this RF module.
2. The block diagram only shows RF 2.4G WIFI module block, which was not enough.  
Please provide the detailed block diagram for this RF module.
3. For modular approval, the following information should be included in the user manual:  
This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter. This equipment complies with FCC/IC radiation exposure limits set forth for uncontrolled equipment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65. This equipment should be installed and operated with at least 20cm and more between the radiator and person's body.

George Chen

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
