

- 1.) The Label appears on the battery compartment door. This is not allowed under FCC rules. All labels must be permanently attached to the device. Battery compartment doors are not considered "permanent".

The label has been removed to the bottom of the device. The revised label sample has been uploaded the database.

- 2.) FYI: Please note you have used the wrong limits on some of your radiated emissions. The frequencies of 1580, 2376 and 3872 all fall into the 15.205 'Restricted Bands'. The limits applicable to all frequencies above 1GHz are 54dBuV.

The limits for frequencies of 1580,2376 and 3872MHz have changed to peak: 74 dBuV/m and AV:54 dBuV/M.

The revised test report has been uploaded to database.
