

## Let's Get Your Camera Ready!

1

## Remove the Plastic

Carefully peel off the plastic cover by lifting it from one of the corners. Make sure to avoid touching the camera lens directly to prevent smudging.

2

## Remove the Back Cover

- **Locate the two dotted triangles** on the back of your camera device.
- **Push down on the dotted triangle** to release and remove the back cover.

3

## Insert Batteries

- **Insert 4 AA batteries** into the battery compartment.

4

## Secure the Back Cover

- **Slide the back cover back onto the camera** until it clicks into place, ensuring it is securely fastened.

5

## Ensure the Camera is Powered On

- **Check the indicator light**—you should see a solid green light for 3 seconds to confirm the camera is powered on.

6

## Enable Bluetooth Pairing Mode

- **Press and hold the pair button** for 3 seconds on the side of the camera device to put the camera in Bluetooth pairing mode.
- **Observe the indicator light**—it should blink green until pairing is complete.
- Once paired, you should see a solid green indicator light for 3 seconds to confirm successful Bluetooth pairing to your phone.
