

User Manual

1. Technical Parameters

Working Frequency: $315.15\text{MHz} \pm 150\text{kHz}$

Modulation Type: OOK

RF Output Power: $<1\text{mW}$

Working Voltage: DC 12V

Working Current: $<11\text{mA}$

2. Operational Manual

Press the 1 button remote control, indicator light fired at the same time launch data signal D1, open button, the remote control to stop the launch, the indicator light turns off

Press the 2 button remote control, launching bright light, while data for launching the signal D2, open button, the remote control to stop the launch, the indicator light turns off

3. Notes

If transmitting distance from near or lights dimmed variable, please replace the battery in time

FCC WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for and radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
