

Date: 2020-01-02

Gentlemen:

Regarding to the FCC 15.212, LM Technologies Ltd. would like to request modular approval for the submission FCC ID: VVXLM074. LM Technologies Ltd. confirms that the product complies with numbered requirements identified below:

1. "The modular transmitter must have its own RF Shielding"
This EUT has its own shielding, please refers to external photos of the report.
2. "The modular transmitter must have buffered modulation/data inputs"
The EUT has buffered data inputs; it is integrated in chip CSRB5348A11-IBVE-R.
3. "The modular transmitter must have its own power supply regulation"
The EUT interface provides 5VDC, and has its own VCO inside.
4. "The modular transmitter must comply with the antenna and transmission system requirements of Sections 15.203, 15.204(b) and 15.204(c)"
The EUT meets the antenna requirements. It has an Integral antenna. Refer to the photo of antennas are shown in the internal photos.
5. "The modular transmitter must be tested in a stand-alone configuration."
The EUT is tested in an access point configuration via DC power.
6. "The modular transmitter must be labeled with its own FCC ID number."
The EUT has its own FCC ID and the label is visible.
7. "The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with module to explain any such requirement."
The EUT comply with all applicable FCC Rules. Warning detail refer to the user manual.
7. "The modular transmitter must comply with any applicable RF exposure requirements."
The EUT comply with all applicable RF exposure requirements. See this RF exposure report.

Sincerely,

LM Technologies Ltd.

Michael Sims/Managing Director
