Columbia, MD

We, SmartRG, Inc., declare that this sample (FCC ID: VW7SR808A) does not have an Ad Hoc mode function on "non-US/Canada frequencies". In addition, the frequency selection feature is disabled by firmware for devices marked for US/Canada. For DTS part of this device, only channels 1-11 will be used in North America, and Country code selection is disabled.

Should you have any questions or comments regarding this matter, please contact me.

Sincerely,

James R Teeter
