IMPORTANT SAFETY INSTRUCTIONS

Read all instructions before using this appliance.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and must accept any interference received, including interference that may cause undesired operation.

Warnings:

(a) **Conditions to Satisfy Modular Transmitter Approval**

This device is intended only for use by OEM integrators under the following 3 conditions:

- 1) The antenna must be installed such that 20 cm is maintained between the antenna and the end user for all installations.
- 2) The transmitter module may not be co-located with any other transmitter or antenna.
- 3) The Module is approved using the FCC 'unlicensed modular transmitter approval' method. Therefore the module must only be used with the originally approved antennas.

As long as the 3 conditions above are met, further transmitter testing will not be required. However, the OEM integrator is still responsible for testing their end-product for any additional compliance requirements with this module installed (for example, digital device emissions, PC peripheral requirements, etc.).

IMPORTANT NOTE: In the event that any of these conditions can NOT be met (for example certain laptop configurations, co-location with another transmitter, or use of a different type antenna), then the FCC authorization for the module is no longer considered valid and the FCC ID can NOT be used on the final product. In these circumstances, the OEM integrator will be responsible for re-evaluating the end product (including the transmitter) and obtaining a separate FCC authorization.

(b) **Suggested End Product Labeling**

This transmitter module is authorized only for use in devices where the antenna may be installed in such a way that 20 cm may be maintained between the antenna and the users (for example access points, routers, wireless ASDL modems, and similar equipment). The final end product must be labeled in a visible area on the exterior of the enclosure with the following or similar text: "Contains TX FCC ID: VXY 70002".

(c) FCC & IC Information to Consumers

The user manual for the consumer must contain the statements required by the following FCC and IC regulations: 47 C.F.R. 15.19(a)(3), 15.21, 15.101 and RSS-Gen Issue 2 dated June 2007, Sections 7.1.4 and 7.1.5.

(d) RF Exposure Statements That Must be Included in the Final Devices Users Manual

The user manual for consumers must include the following information in a prominent location: "IMPORTANT NOTE: To comply with FCC RF safety exposure limits, the antenna used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

(e) Additional Information That Must be Provided to OEM Integrators

The end user should NOT be provided any instructions on how to remove or install the modular transmitter.

Installation:

The UCF can be installed inside the minibar or inside a wooden cabinet.

- 4 stainless screws are needed to fix the main part on the top or on the side of the fridge or of the cabinet.
- 2 stainless screws are needed to fix the latch to the door of the fridge or of the cabinet

M.D.C INSTALLATION

The device must be powered by a 12 VDC – 60 mA power supply complying with the safety and FCC rules.

TECH. PARAMETERS:

Voltage input: 12 VDC

Current power input:: 60mA / 0.7 Watt

Radio Frequency Band: 902-927 Mhz

WARRANTY INFORMATION

The manufacturer provides warranty in accordance with the legislation of the customer's own country of residence, with a minimum of 1 year (Germany: 2 years), starting from the date on which the appliance is sold to the end user. The warranty only covers defects in material or workmanship.

The repairs under warranty may only be carried out by an authorized service centre. When making a claim under the warranty, the original bill of purchase (with purchase date) must be submitted.

The warranty will not apply in cases of:

- Incorrect use, e.g. overloading of the appliance, use of non-approved accessories
- Use of force, damage caused by external influences
- Damage caused by non-observance of the user manual, e.g. connection to an unsuitable mains supply or non-compliance with the installation instructions
- Partially or completely dismantled appliances

CORRECT DISPOSAL OF THIS PRODUCT

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection Systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.
