

RadaScan Sample Marking Plate

- Position Measurement
- Autonomous Vehicles
- Laser Scanners
- Sensor and Control Systems

Marking Plate Durability

The marking plate is fixed to the outside of the RadaScan radome above the access hatch with a self adhesive tape. The marking plate is made of aluminum foil. The marking plate has been tested with isopropyl alcohol and a mechanical test as specified in ExTAG/67/CD. The marking is considered to be durable for the life of the product.
