| <p><b>Solder<br/>Board-Component<br/>View 1</b></p> |  A photograph of a green circular printed circuit board (PCB) component with a white cable attached. The component is positioned on a blue textured surface next to a metal ruler. The ruler has two scales: a vertical scale on the left marked from 1 to 17 mm and a horizontal scale at the bottom marked from 1 to 21 cm. The PCB has a central circular hole and several smaller holes around its perimeter. A white cable is soldered to the component and extends to the right, ending in a small yellow tag with a warning symbol. The tag has text that is partially legible, including "DC 0-10V" and "0-10V". |
| <p><b>Solder<br/>Board-Component<br/>View 2</b></p> |  A photograph of the same green circular PCB component from a different angle. The component is positioned on a blue textured surface next to a metal ruler. The ruler has a vertical scale on the left marked from 1 to 17 mm and a horizontal scale at the bottom marked from 1 to 21 cm. The PCB has a central circular hole and several smaller holes around its perimeter. A white cable is soldered to the component and extends to the right, ending in a small yellow tag with a warning symbol. The tag has text that is partially legible, including "DC 0-10V" and "0-10V".                                  |

| <p><b>Solder<br/>Board-Component<br/>View 5</b></p> |  A photograph of a green printed circuit board (PCB) component, labeled 'View 5'. The component is rectangular and populated with various electronic components, including integrated circuits, capacitors, and resistors. A white flexible cable is connected to the right side of the board. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows the component is approximately 10 cm long and 2 cm wide. |
| <p><b>Solder<br/>Board-Component<br/>View 6</b></p> |  A photograph of the same green PCB component, labeled 'View 6'. This view shows the underside of the component, which is populated with solder pads and some surface components. The white flexible cable is still attached. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows the component is approximately 10 cm long and 2 cm wide.                                                                 |
